2

Learning Objectives

- An overview of the over \$3.6 billion Federal-wide and over \$1 billion HHS/NIH-wide SBIR and STTR programs.
- How to engage and collaborate with SBIR- and STTR-funded small businesses to leverage these opportunities.

Learning Objectives

- Highlighting the value-added guidance a technology manager could provide his/her Institution and PIs/researchers as to how to tap into this \$3.6 billion set aside and to help facilitate successful university-small business collaborations/opportunities under the SBIR and STTR programs.

Aren't SBIRs just for small businesses? How much of this funding is available to nonprofit research institutions?

- \$3.6 billion set aside across all Federal agencies for SBIRs & STTRs
 - Over \$1 billion HHS/NIH set aside
- SBIRs
 - Small business must do at least 2/3 of the work (up to 33% budget available)
- STTR
 - Small business must do at least 40% of the work (up to 60% budget available)

Providing Your Institution and its PIs/Researchers with an Overview of the SBIR and STTR Programs

SBIR/STTR Budgets by U.S. Agency, FY2018

~ \$3.6 Billion in FY2018
across all agencies

5 AGENCIES WITH SBIR & STTR PROGRAMS	APPROX BUDGET
Department of Defense (DOD)	\$ 1.750 B
Department of Health and Human Services (DHHS), including the National Institutes of Health (NIH)*	\$1.088 B
Department of Energy (DOE), including Advanced Research Projects Agency – Energy (ARPA-E)	\$291.7M
National Science Foundation (NSF)	\$ 202.4 M
National Aeronautics and Space Administration (NASA)	\$198.0 M
6 AGENCIES WITH ONLY SBIR PROGRAMS	APPROX BUDGET
Department of Agriculture (USDA)	\$27.0M
Department of Homeland Security (DHS): Science and Technology Directorate (S&T) & Countering Weapons of Mass Destruction Office (CWMD)	\$20.8 M
Department of Commerce: National Oceanic and Atmospheric Administration (NOAA) & National Institute of Standards and Technology (NIST)	\$14.2M
Department of Transportation (DOT)	\$8.5 M
Department of Education (ED)	\$7.5 M
Environmental Protection Agency (EPA)	\$4.2 M

*DHHS also issues contracts

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Mission of the SBIR and STTR Programs

To support scientific excellence and technological innovation by providing investment of Federal R&D funds into small businesses to work on critical national priorities and build a stronger economy.

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Congressionally Mandated Programs

SET ASIDE

3.2%

SMALL BUSINESS INNOVATION RESEARCH (SBIR) PROGRAM

Set-aside program for small business concerns to engage in federal R&D -- with potential for commercialization

.45%

SMALL BUSINESS TECHNOLOGY TRANSFER (STTR) PROGRAM

Set-aside program to facilitate cooperative R&D between small business concerns and US research institutions -- with potential for commercialization

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

SBIR Purpose and Goals

- Stimulate technological innovation
- Use small business to meet federal R&D needs
- Foster and encourage participation by minorities and disadvantaged persons in technological innovation
- Increase private-sector commercialization innovations derived from federal R&D

Small Business Innovation Development Act of 1982

P.L. 114-328 Re-Authorizes program through FY2022

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

STTR Purpose and Goals

- Stimulate and foster scientific and technological innovation through **cooperative research** and development carried out **between small business concerns** and **research institutions**
- Foster **technology transfer** between small business concerns and research institutions

Small Business Research and Development Enhancement Act of 1992

P.L. 114-328 Re-Authorizes program through FY2022

11

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Program Eligibility Criteria

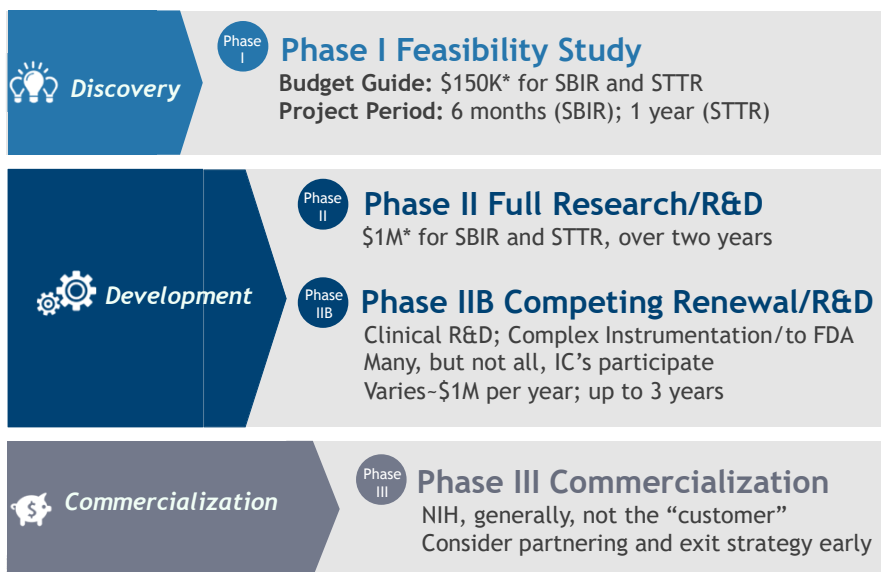

- Organized as for-profit US business
- Small: 500 or fewer employees, including affiliates
- Work must be done in the US (with few exceptions)
- Individual Ownership:
 - Greater than 50% US-owned by individuals and independently operated OR
 - Greater than 50% owned and controlled by other business concern/s that is/are greater than 50% owned and controlled by one or more individuals, an Indian tribe, ANC or NHO (or a wholly owned business entity of such tribe, ANC or NHO), OR
 - Be a concern which is more than 50% owned by multiple venture capital operating companies, hedge funds, private equity firms, or any combination of these (For some agencies)

Determined at Time of Award

- Applicant is a Small Business Concern
- Formal Cooperative R&D Effort
 - Minimum 40% by small business
 - Minimum 30% by US research institution
- US Research Institution
 - College or university; other non-profit research organization; Federal R&D center
- Intellectual Property Agreement
 - Allocation of rights in IP and rights to carry out follow-on R&D and commercialization

SBIR and STTR Critical Differences

	SBIR	STTR
Partnering Requirement	Permits partnering	Requires a non-profit research institution partner (e.g. university)
Work Requirement	Guidelines: May outsource 33% (Phase I) 50% (Phase II)	Minimum Work Requirements: 40% small business 30% research institution partner
Principal Investigator	Primary employment (>50%) must be with the small business	PI may be employed by either the research institution partner or small business

Award is always made to the small business

SBIR/STTR Reauthorization update

- SBIR/STTR programs reauthorized for 5 year FY18 through FY22
- Pilot programs extended through 2022
 - SBIR Direct Phase II
 - Commercialization Readiness Pilot (CRP) Programs
 - 3% Agency SBIR Admin funds
 - NIH Phase 0 Proof of Concept Centers
- Expand Technical Assistance
 - Phase I \$6,500/year (up from \$5,000/year)
 - Phase II \$50,000/project (up from \$5,000/year)
 - SBC hire own vendor or use agency vendor

SBIR/STTR Legislative Update

- Increase Technical And Business Assistance (TABA)
 - Up to \$6,500 per year per Phase I (up from \$5K/year)
 - Up to \$50,000 per Phase II **project** (up from \$5K/year)
 - Request at time of APPLICATION
 - Request in “F. Other Direct Costs” lines 8-10 on SBC budget Label as “Technical Assistance”

F. Other Direct Costs		Funds Requested (\$)
1. Materials and Supplies		
2. Publication Costs		
3. Consultant Services		
4. ADP/Computer Services		
5. Subawards/Consortium/Contractual Costs		
6. Equipment or Facility Rental/User Fees		
7. Alterations and Renovations		
8.		
9.		
10.		
Total Other Direct Costs		

Subaward/Consortium/Contractual Costs are not pre-populated. Include both Direct and Indirect costs.

NIH SBIR/STTR Website

<https://sbir.nih.gov>

What are SBIR and STTR Programs?

The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs, also known as America's Small Fund, are one of the largest sources of early stage capital for technology commercialization in the United States. These programs allow concerned and spirited small businesses to engage in federal research and development that has a strong potential for commercialization.

In Fiscal Year 2017, NIH's SBIR and STTR programs will invest over \$25 million dollars into health and life science companies that are creating innovative technologies that align with NIH's mission to improve health and well-being. A key objective is to translate promising technologies to the private sector and engage the leading innovators in their commercial markets.

Standard Due Dates: September 5th 2019, January 5th 2020,
April 5th 2019.

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Solicitations and Due Dates

Specific FOAs: <https://sbir.nih.gov/funding>

- May offer additional resources in addition to funding
- Not all of them have specific set-asides or even separate reviews
- Not all Institutes/Centers Participate
- Example: NINDS only accepts clinical trials through specific FOAs
- Read program announcements carefully

Contact program staff at the end of the FOA

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Example Targeted FOAs

NINDS Cooperative Translational Programs

Small Molecules (PAR-18-546; PAR-18-541)

- Small molecule drug discovery and development
- Access to consultants and contracts that provide discovery, preclinical development, and clinical trial support
- Charles Cywin (charles.cywin@nih.gov)

Biologics (PAR-17-456; PAR-17-457; PAR-18-542; PAR-18-543)

- Therapeutic Biotechnology Products and Biologics (e.g. peptides, proteins, oligonucleotides, gene therapies, and cell therapies) discovery and development
- Access to consultants (statistics, regulatory, CMC)
- Chris Boshoff (chris.boshoff@nih.gov)

Neural Devices (RFA-NS-18-011; RFA-NS-18-012)

- Development, validation and verification, and early clinical studies of therapeutic and diagnostic devices
- Support for small clinical trial to collect safety & effectiveness data
- Nick Langhals (nick.langhals@nih.gov)

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

How do Small Business Concerns (SBCs) apply for SBIR and STTR funding?

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Electronic Submission

SBIR/STTR grant applications and SBIR contract proposals must be submitted **electronically**. Start 6-8 weeks before the application due date.

Registrations are required!!!

- DUNS Number (Company)
 - System for Award Management (SAM)
 - Grants.gov (Company)
 - eRA Commons (Company and all PD/PIs)
 - SBA Company Registry at SBIR.gov
- Helpful [NIH Grants Registration Infographic](#)
 - For contracts, submit proposals with [electronic Contract Proposal Submission](#) (eCPS) website

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Submit via ASSIST or Workspace

ASSIST

NIH's web-based service for the preparation, submission and tracking of grant applications.

Learn more about preparing your application using ASSIST

Grants.gov Workspace

A shared, online environment managed by Grants.gov where multiple users may simultaneously work on different forms within an application package.

Learn more about preparing your application using Grants.gov Workspace

Institutional Solutions (System-to-System, S2S)

Institution's own system to prepare and submit application data to Grants.gov complying with all application requirements.

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Application Assistance

SBIR/STTR Applicant Assistance Program

NIH AAP PROGRAM	NOT PROVIDED
Phase I Preparation Support and Review	Grant Writer
Specific Aims Page Review and Advice	Development of Research Plan

Timeline: New Applications

Due Date	Scientific Review	Council Review	Award Date <i>(earliest)</i>
April 5 th	May/June	Aug/Sept	October
Sept 5 th	Oct/Nov	Jan/Feb	March
Jan 5 th	Feb/Mar	May/June	July

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

NIH Application & Review Process

Applicant initiates research idea

Small Business Concern confirms Eligibility

Submits SBIR/STTR grant application to NIH electronically

NIH Center for Scientific Review assigns to IC and IRG

1-2 Months

IC staff prepare funding plan for IC Director

2-4 Months

Advisory Council or Board recommend Approval

3 Months

Scientific Review Group evaluates scientific merit

IC allocates funds

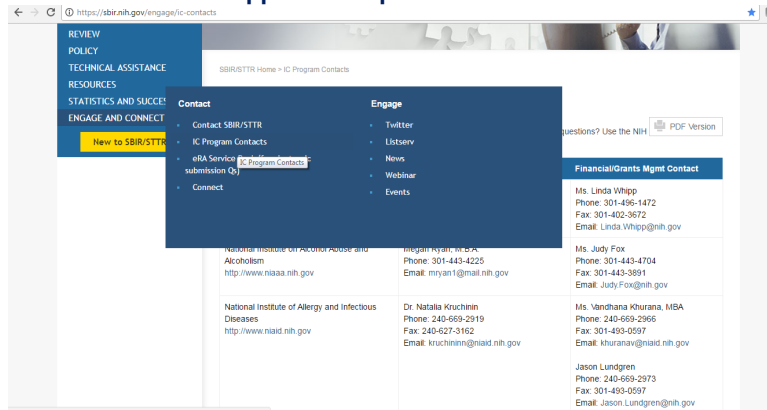

Grantee conducts research

Talk to a HHS Program Officer at least a month before a deadline for application specific advice.

What is a Women-Owned Small Business (WOSB)?

- A firm must be at least 51% owned and controlled by one or more women, and primarily managed by one or more women (who must be US citizens)
- The firm must be “small” in its primary industry in accordance with SBA’s size standards for that industry
- SBCs self certify on the SF 424 (R&R) Form

What is a Socially and Economically Disadvantaged Business (SDB)?

- The firm must be 51% or more owned and control by one or more disadvantaged persons
- The disadvantaged person or persons must be socially disadvantaged and economically disadvantaged
- The firm must be small, according to SBA’s [size standards](#)
- You must self-certify by registering your business in the [System for Award Management](#)

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Encouraging Entrepreneurship: STTR Accelerator Hubs

- A new initiative in response to Congressional directive
- 4 IDEa Regions (Institutional Development Award (IDEa))
- One hub per region to provide infrastructure and encourage entrepreneurship within the regional culture.
- Training, mentoring, consulting services in:
 - Entrepreneurship
 - Technology transfer
 - IP protection and marketing
 - Small business finance
 - Business development
 - Partnerships

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Encouraging Entrepreneurship: STTR Accelerator Hubs

IDEa Region	Program Name	Small Business Concern	Major Academic Partnering Institution
Northeast	DRIVEN: Accelerating Medical Entrepreneurship in the Northeast	CELDARA MEDICAL, LLC, Lebanon, New Hampshire	University of Vermont, Burlington, Vermont
Central	The Sustainable Heartland Accelerator Regional Partnership (SHARP) Hub	BBC ENTREPRENEURIAL TRAINING AND CONSULTING, LLC, Chelsea, Michigan	University of Kansas Medical Center, Kansas City, Kansas
Western	ASCEND, Accelerating Solutions for Commercialization and Entrepreneurial Development in the Mountain West IDEa States	VIRTICI, LLC, Seattle, Washington	University of New Mexico Health Sciences Center, Albuquerque, New Mexico
Southeast	Southeast Xlerator Network	XLERATEHEALTH, LLC, Louisville, Kentucky	University of Kentucky, Lexington, Kentucky

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

What technical assistance and resources programs are available for Small Business Concerns and academic entrepreneurs to assist in commercializing their NIH-funded technologies?

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

NIH Technical Assistance Programs

Niche Assessment Program-Foresight S&T (Phase I Awardees)

- Helps jump start commercialization efforts
- Determines competitive advantages
- Develops market entry strategy

Commercialization Accelerator Program - Larta, Inc. (Phase II Awardees)

- Technical Assistance/Training in:
 - Strategic/business planning
 - FDA requirements
 - Technology evaluation
 - Manufacturing issues
 - Patent and licensing issues
- Helps build strategic alliances
- Facilitates investor partnerships
- Individualized mentoring/consulting

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

Multi-IC Technology Development Programs (open to eligible Awardees from participating ICs)

I-Corps™ at NIH

An intensive *Entrepreneurial Immersion* course for scientists

12 Participating ICs + CDC

Facilitating Partnerships

Small Business Innovation Research (SBIR)
Small Business Technology Transfer (STTR)

NCATS Additional Resources:

Bridging Interventional Development Gaps (BrIDGs)

- Model: Collaboration between Division of Preclinical Innovation (DPI) and extramural labs
- Projects
 - Enter with clinical candidate identified
 - Any disease eligible
 - Gap analysis followed by data generation using DPI resources and expertise to generate data necessary for IND filing
 - Exit at or before IND
 - Milestone driven
 - Therapeutic modalities: small molecules, peptides, oligonucleotides, gene therapy, antibodies, recombinant proteins
- Eligible Applicants
 - Academic (U.S. and Ex-U.S.), Non-Profit, SBIR-eligible businesses

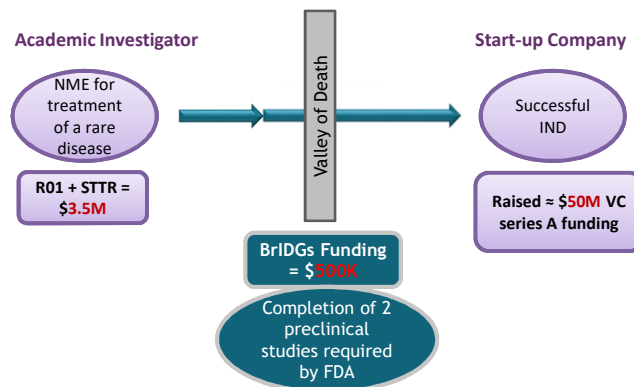

NCATS Additional Resources:

Therapeutics for Rare and Neglected Diseases (TRND) Program

- Model: Comprehensive drug development collaboration between DPI and extramural labs with disease-area/target expertise
- Projects
 - May enter at various stages of preclinical development
 - Disease must meet FDA orphan or WHO neglected tropical disease criteria
 - Taken to stage needed to attract external organization to adopt to complete clinical development/registration, max Phase 2a
 - Milestone driven
 - Therapeutic modalities: small molecules, proteins, peptides, oligonucleotides, gene therapy, antibodies, recombinant proteins
- Eligible Applicants
 - Academic, Nonprofit, Government Lab, Biotech/Pharma
 - Ex-U.S. applicants accepted

TRND/BrIDGs Project De-Risking Model Minimum Time and Funding; Maximum Impact
