- 4.3 million jobs supported
- 380,000+ inventions disclosed...
- 80,000+ U.S. patents issued...
- 11,000+ startups formed since 1995
- 70% of university innovations licensed to startups and small companies
- 200+ drugs and vaccines developed through public-private partnerships since Bayh-Dole Act enacted in 1980

The Association of University Technology Managers (AUTM) is the nonprofit leader in efforts to educate, promote and inspire professionals, throughout their careers, to support the development of academic research that changes the world. AUTM’s community is comprised of more than 3,200 members who work in more than 800 universities, research centers, hospitals, businesses and government organizations around the globe.

Every year university research yields discoveries with commercial potential.

Technology transfer professionals associated with universities and other academic institutions manage the complex process of shepherding ideas from the lab to the marketplace — from evaluating and protecting discoveries to commercializing the inventions through new and existing companies.
